## Damp wiping with foam (manual foaming)

### Description

|   |   |
|---|---|
| <b>Definition / objective</b>   | <b>Removing loose and easily removable dirt from the surface with a damp cleaning cloth.</b><br>The surface dries immediately.  |
| <b>Preparatory work</b>   | Select suitable products to match the surface to be cleaned (type / square metres) and the type of soiling.   |
|    | Put up the warning sign.  |
|   | Fill the foam bottle with cleaning product in accordance with the dosing instructions.  |
| <b>Main task</b>  | Spray a little cleaning foam onto the folded microfibre cloth.  |
|    | Use the moistened area of the cloth to damp wipe the surface. Change the cloth face when it gets dirty and moisten another area of the cloth with foam.   |
|   | Replace the cloth once all cloth areas have been used.  |
|    | Perform a visual check.   |
| <b>Final steps</b>  | Remove the warning sign.  |
|   | Dispose of any waste.   |
|   | Wash the used cloths in the washing machine.  |
|   | Clean the cleaning equipment and replace as needed.   |
| <b>Comments</b>   | <ul style="list-style-type: none"> <li>- Wear the personal protective equipment (PPE) required by company regulations, safety data sheets and / or instructions for use.</li> <li>- Always check in advance which product meets your requirements (see Wetrok Cleaning &amp; Care Instructions).</li> <li>- Wetrok AG accepts no liability for damage caused by improper use or incorrect product selection.</li> </ul> |
